

65^{LAT}
YEARS

TRUCK BRAKE PADS

offer 2025

IN NUMBERS:

65^{LAT} YEARS

more than
500
road tests
were carried out

annually
15000h
on internal
dynamometers,
which means

more than
600 000
braking cycles
at temperatures
up to:

600°C

4x

times more tests than
those required by the ECE R90
regulations to check and confirm
the quality of manufactured products

We cooperate with independent
research laboratories
(local and foreign).

PERFECT SET: BRAKE PADS & BRAKE DISCS

STEINHOF's offer includes a wide range
of brake discs for commercial vehicles.
The guarantee of optimal parameters
and mileage is the use of dedicated
STEINHOF brake discs
in addition to STEINHOF brake pads.

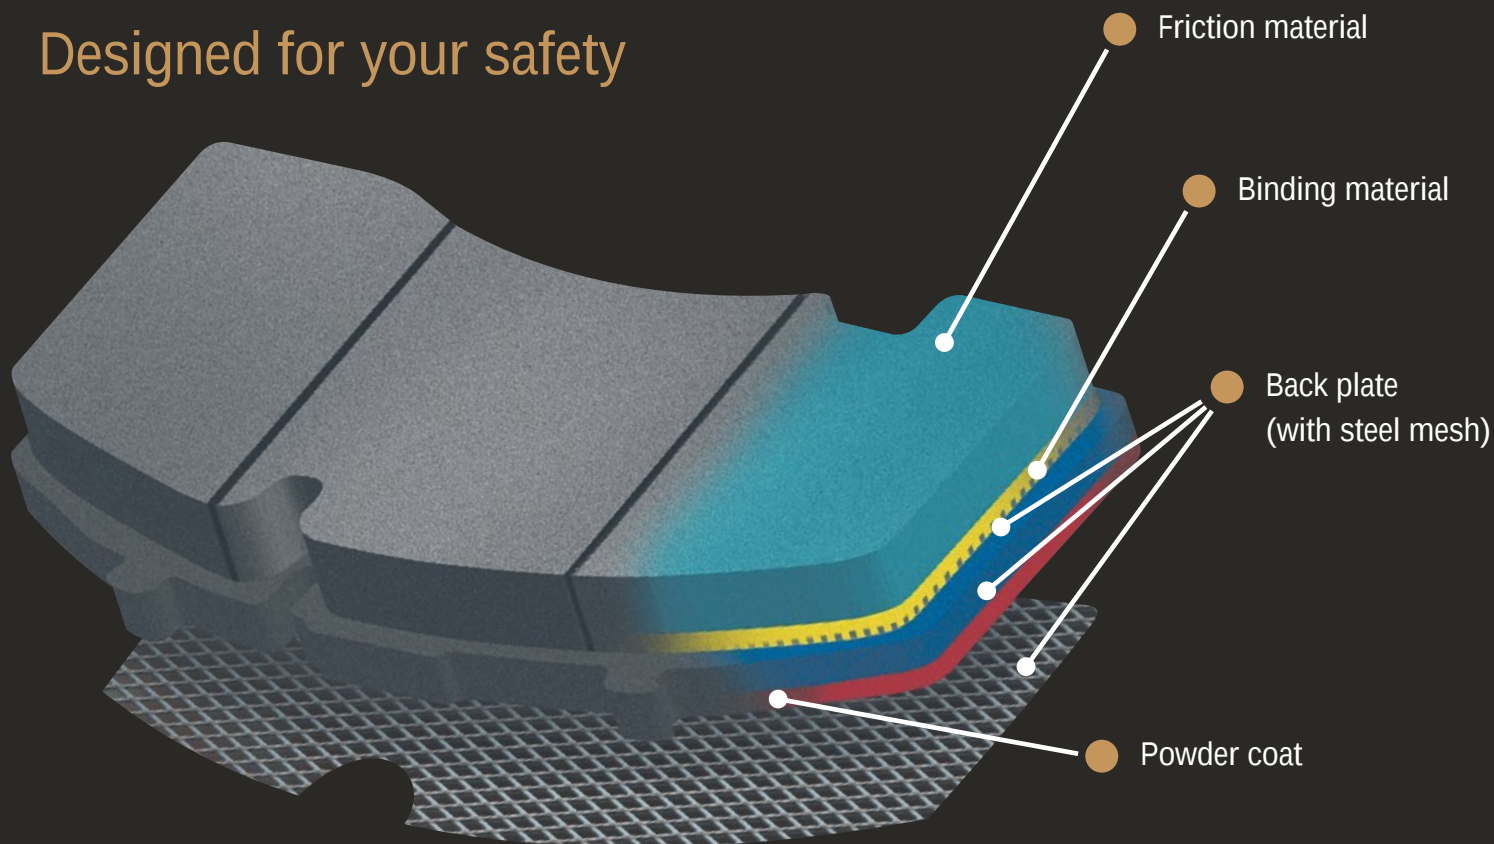

NEW IN OFFER

To meet customer expectations, STEINHOF has
introduced **brake pads for agricultural
and construction machines** to its offer.
The friction material was developed in the
STEINHOF laboratory, specifically dedicated
to this type of machines.
Brake pads for agricultural and construction
machines are becoming more and more popular.

(E20) (E11) ECE-R90

Designed for your safety

Friction material

- asbestos free, no heavy metals included, based on metal, mineral and synthetic fibers
- unique friction composition created in Steinhof laboratory
- high durability
- effective even in hardest conditions

Binding material

- guarantee of the optimal connection of friction material with back plate
- provides superior shearing resistance

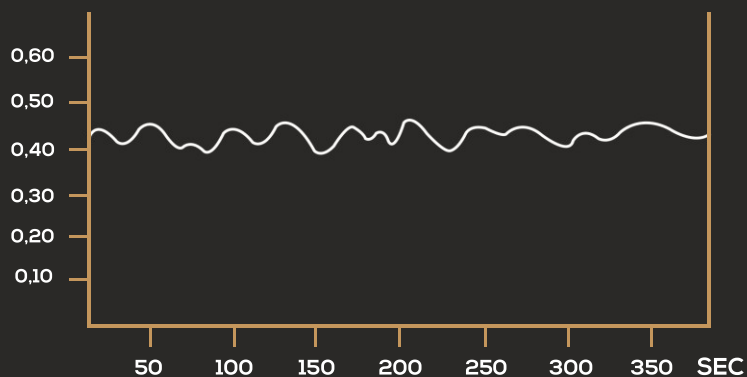

Back plate

- precise and strictly defined shape
- steel mesh reinforcement for increased safety
- excellent surface flatness

Powder coat

- professional durable finish layer
- environmentally friendly and corrosion-resistant paint

Friction coefficient of Steinhof CV Brake Pads

Laureate of intelligent
development award

Over than 65 years
of experience
in the production of brake pads

Continuous investment
in technological development
by creating modern production hall
and specialist laboratory
